PRESIDENT  
KEVIN HEBREW

DIRECTORS  
SCOTT MEINBERG  
MATT ESTEVE  
BRAD HENMAN  
HAL CRAIN

SECRETARY  
KEVIN HEBREW

July 23, 2026

Dear Corning Water District Landowners,

On behalf of the Corning Water District Board of Directors, I would like to thank everyone who attended and participated in our public hearing held on **July 22, 2026**, at Rolling Hills Casino in Corning.

Following the public hearing, the weighted ballots were opened and counted in accordance with California law. The final results showed that **90.25% of the weighted ballots cast were in favor** of increasing the District's Operations and Maintenance (O&M) Assessment to **\$38.13 per acre**.

The District's Board of Directors approved levying the assessment at the rate of \$38.13 per acre on all District lands commencing with the 2026-2027 Fiscal Year.

We recognize that any assessment increase is a significant decision, and we appreciate the thoughtful consideration given by our landowners. Your participation demonstrates the commitment our agricultural community has to preserving a strong and reliable water district for future generations.

As your Board of Directors, we remain committed to being careful stewards of the District's resources. Every dollar collected through this assessment will be used to support the operation, maintenance, and long-term sustainability of the Corning Water District.

The Board and staff will continue to work diligently to manage the District responsibly, operate transparently, and provide the reliable water delivery system that our growers depend upon. We value your confidence and look forward to serving you for many years to come.

With sincere appreciation,

**Kevin Hebrew**  
President, Board of Directors  
Corning Water District

**Barb Lindauer**  
General Manager
